

MODEL C 2536 D

MARINE/INDUSTRIAL MULTIVOLTAGE BATTERY CHARGER

Versatile charger for use with 12, 24, 32 and 36 volts lead acid batteries. Continuous duty charging capacity of 25 amps with timer control for rugged and flexible professional service.

Heavy duty industrial construction means long life and performance in a variety of marine and industrial applications.

The C 2536 D is available for 230 volt ac service (C 2536 D-2).

- **Multiple Charging Voltages:**
Voltage settings available for 12,24,32 and 36 volts to include a wide variety of marine and industrial batteries.
- **Charging Rate:**
Variable charging rate of 25 amps with high, medium and low rate adjustments. Front panel fuses provided for circuit protection.
- **Timer Control:**
24 hour timer is provided to automatically turn off charger at the end of the selected charging time.
- **Heavy Duty Construction:**
Heavy industrial grade steel cabinet with acid-proof powder coating finish. Transformer is isolating type, all copper construction. Rectifiers are heavy duty industrial grade silicon diodes.
- **Warranty**
The C 2536 D has a one year warranty covering parts and labor. Service is provided at over 200 authorized Service Centers nationwide. Cables and clamps are excluded.
