

MODEL FDC

FLEET DUTY 6/12/24 FAST CHARGER/BOOSTER

The FDC provides high performance 6/12/24 volt, 70 amps charging for all purpose fleet maintenance.

With Christie's standard safety feature package and tough heavy duty construction, this charger has America's best 10/5/1 warranty for years of rugged durability. It has three charge rates (low, medium, high) at each voltage. The timer switch has two-hour range with a "hold" position.

The FDC has 300 amps of engine cranking capacity to boost start cars and trucks with dead batteries.

- **UL Listed for Outdoor Use**

The FDC is listed by Underwriters Laboratories and Canadian Standards Association for all weather, outdoor use.

- **Christie Tough Heavy Duty Construction**

Heavy duty construction means 200 amp rated industrial grade rectifier diodes, 500 amp vinyl coated side-terminal clamps, galvanized cabinets with powder coated polyester finishes, tough rubber wheels and a high chrome handle for easy maneuverability. Transformers are built with all copper magnet wire and high grade silicon steel for rugged dependability.

- **Vehicle/Operator Safety Protection**

Christie's exclusive Spike Voltage Protection and Automatic Reverse Polarity Protection features prevent damage to vehicle computer electronic systems from charging voltage spikes/surges and reverse boosting. Also prevents sparks due to accidental reverse con-nections which can cause battery explosions.

- **10/5/1 Warranty Plan: America's Best**

Ten years free replacement of transformers and rectifiers; Five years on other parts; One year free service labor at over 200 authorized Service Centers nationwide. Cables, cords and clamps excluded.

Specifications:

AC Input Power:

Volts AC 120
15 amps AC
60 Hz.

Dimensions:

Height 22 in.
(plus 19 in. handle)
Width 14 in.
Depth 12 in.
Wheels 8 in.
Weight 65 lbs.

DC Output Power:

6/12/24 Volts DC (Nominal)
70 Amps DC (Continuous)

UL/CSA Listed for Outdoor Use
