

MODEL MCS 10

# 10 BATTERY MULTIPLE CHARGING SYSTEM

Recharge 10 batteries in parallel with easy, simple, no adjustments operation for battery stock maintenance and overnight battery charging.

Includes Christie's L 1240 parallel battery charger and BR 1 battery charging rack with color coded charging leads for ten automotive batteries.

Available with on/off switch or a 24 hour timer control as MCS 10T.

- **Simple Operation**

The MCS system is simple to use. The only control is the on/off power switch. Dual meters indicate charging voltage and current. The special transformer design provides for automatic taper charge reduction as the battery group reaches full charge.

- **Rugged Stand-Alone Steel Rack**

Christie's battery charging rack includes 10 pairs of color-coded charging leads with heavy #10 AWG cable and 40 amp clamps. Shelves are vinyl coated to protect against acid spills.

- **Automatic Charger**

The charger has automatic current taper design to provide quicker charge times and low finish charge current. Includes automatic current limiting and overload current protection.

- **System Equipment Group**

The system can also be purchased as individual equipment units. The components are the L 1240 Parallel Charger and the BR 1 Charging Rack.

MADE IN USA

### Specifications:

**AC Input Power:**

Volts AC 120  
15 amps AC 60 Hz

**Dimensions:**

Height 48 in.  
Width 48 in.  
Depth 12 in.  
Weight 112 lbs.

**Charging Capacity**

10 Batteries  
40 amps total

**DC Output Power:**

12 Volts DC (Nominal)  
40 Amps DC (Continuous)

**Equipment Includes:**

L 1240 Battery Charger  
BR 1 Charging Rack

**Warranty:** One year, parts and labor
