

MODEL QWC

HEAVY DUTY 70 AMP BATTERY CHARGER/BOOSTER

High performance 6/12 volt, 70 amps for faster customer service and lower charging times at competitive prices.

The QWC provides versatile charging for conventional and maintenance free 6 and 12 volt batteries with three charge rates (low, medium, high) at each voltage. The timer switch has two-hour range with a "hold" position.

The QWC has 300 amps of engine cranking capacity to boost start cars and trucks with dead batteries.

● **Christie-Tough Heavy Duty Construction**

Heavy duty construction means 200 amp rated industrial grade rectifier diodes, 500 amp vinyl coated side-terminal clamps, galvanized cabinets with powder coated polyester finishes, tough rubber wheels and a 41 in. high chrome handle for easy maneuverability. Transformers are built with all copper magnet wire and high grade silicon steel for rugged dependability.

● **Vehicle/Operator Safety Protection**

Christie's exclusive Spike Voltage Protection and Automatic Reverse Polarity Protection features prevent damage to vehicle computer electronic systems from charging voltage spikes/surges and reverse boosting. Also prevents sparks due to accidental reverse connections which can cause battery explosions.

● **UL Listed for Outdoor Use**

The QWC is listed by Underwriters Laboratories and Canadian Standards Association for all weather, outdoor use.

● **5/2/1 Warranty Plan: America's Best**

Five years free replacement of transformers and rectifiers; Two years on other parts; One year free service labor at over 200 authorized Service Centers nationwide. Cables, cords and clamps excluded.

Specifications:

AC Input Power:

Volts AC 120
15 amps AC
60 Hz.

Dimensions:

Height 22 in.
(plus 19 in. handle)
Width 12 in.
Depth 10 in.
Wheels 6 in.
Weight 50 lbs.

DC Output Power:

6/12 Volts DC (Nominal)
70 Amps DC (Continuous)

MADE IN USA

UL/CSA Listed for Outdoor Use
